

# WoWV Window on Work Values Profile

*Values have a major influence on how individuals approach their work. They drive our decisions, cause us to defend what we believe in and determine our behaviour.*

The alignment between personal and organisational values can have a significant effect on the behaviour of individuals and teams. The Window on Work Values model describes eight core value types that impact how we behave at work:

- Individualism
- Authority
- Collectivism
- Independence
- Compliance
- Conformity
- Empowerment
- Equality

The **Window on Work Values Profile** (WoWV) can assist people and teams to understand what their values are and how they influence their behaviour at work.

The WoWV focuses on individual values to rate their perceptions of the core organisational value types and provides a work values hierarchy. This data enables teams to identify the alignment between personal and organisational values and explore possible implications of any misalignment, such as conflict, disengagement and poor individual or team performance. Once the core values are identified, the team or organisation can begin developing its own Team Values Statement and Team Charter.

## TMS.Global

**TMS.Global** is our delivery platform, designed and built around the end-user experience and with the personal learning journey as a primary focus. In one place, your participants will find everything they need to complete, read, learn about and share their Profiles as well as access a wide range of learning applications, resources and Diagnostic Tools.

Visit [TMS.Global Features](#) to find out more.

### DID YOU KNOW...

The **Window on Work Values** framework offers a simple and practical starting point for discussions around values at work.
